

The IDEALIS priority housing procedure is only available for PhD **scholarship** candidates and for PhD candidates who are part of the **INREF** programme or **WGS** programme and who come to the Netherlands for the **first time**.

The priority only applies to Idealis rooms that become available between **October 1 and April 30**. Please note that if your registration is after 1 March the priority period will be less than 2 months (only until 30 April).

In order to be able to use the priority arrangement for rooms from Idealis, the **first Promotor** must register the PhD candidate at Doctoral Service Centre by sending this completed and signed Priority registration form by email (from his or her email address) to *immigration.dsc@wur.nl*.

Doctoral Service Centre will check and forward the priority application form to Idealis. Idealis will then contact the PhD candidate and assign priority.

Type in the requested information, do **not** complete this form handwritten with pen. Keep in mind that not fully completed forms will not be processed.

Surname	
First name(s)	
Date of birth	
Private email address (same email address as you have used for your ROOM account)
