Room overview Omnia

WAGENINGEN
UNIVERSITY & RESEARCH

Sustainable meeting space

In the heart of Foodvalley

Omnia is located at the entrance of Wageningen Campus.

Omnia is gas free, uses green energy and is completely CO_2 neutral.

The roof of Omnia is totally covered with sedum.

The surrounding natural garden contributes to the biodiversity of Wageningen Campus.

Well connected with the intercity train station, a covered bicycle shed, and covered parking with enough charging stations (P5).

Podium

- 270-300 seats*
- Audiovisual equipment
- Streaming possible
- Own foyer

**270 fixed seats + 30 additional chairs possible*

Home

Podium is the largest hall in Omnia and comfortably seats 270 people in fixed theatre seats with the possibility to place 30 additional chairs on the spacious floor. The U-shaped setup makes the space very suitable for interactive presentations, symposia and discussions on stage. The seats throughout the room are equipped with power sockets, and the long side also has folding tables. With the curtains (partially) open, there is plenty of daylight in the hall. Technical support from the control room during the event can be provided (additional costs). Directly adjoining the hall is an open foyer which can be used for walk-ins, catering and networking. Depending on the number of attendees, stands or posters can also be placed here.

Catchbox

Display
Projection screen (5 x 3 meter)

Computer
HDMI connection and 1 laptop

Preview display
1 screen on floor possibe (included)

Microphones
1 lectern microphone, 1 handheld,
3 revers/headsets (catchbox possible)

Display
LED-wall (3,6 x 2 meter)

Computer
HDMI connection

Preview display
1 small screen in lectern (included)

Microphones (fixed)
1 lectern microphone,
4 interrupt microphones on both desks

Microphones (wireless)
1 handheld, 1 revers/headset

Streaming (basic)
Yuja, additional platforms on own device possible (ambient sound recording)

Streaming (advanced)
Optional

Podium lights
Spots

Posters
Possibility for 24 posters (A0 formaat) on cables. Option for extra posterboards (additional costs).

Particularities
The control room in the back of the hall may only be used by WUR's regular AV supplier.

The Auditorium can accommodate 118 people on 108 fixed theatre seats and 10 additional chairs. The space has excellent acoustics, which means that sound amplification is not always necessary. This makes the Auditorium very suitable for promotions and meetings where the emphasis is on “broadcasting”. Technical support for events is optionally available due to the control unit at the back of the hall. The accompanying foyer is located next to the Auditorium. The hall and foyer offer space to present up to 24 posters (A0 format) on the cables provided. Depending on the number of attendees, stands or posters can also be placed here.

Auditorium and Auditorium Foyer

Restaurant Novum

65 seats

Outdoor terrace

Audiovisual equipment

Euro Toques certificate

Home

Novum is the restaurant at Omnia and can seat up to 65 people indoors. It has a sun-drenched terrace that can seat up to 56 people. Restaurant Novum is open to anyone who wants to enjoy a fresh cup of tea, coffee with cake, lunch, high tea, dinner, drinks, or other social occasions. Novum stands for conceptual, out-of-the-box, and sustainable, where minimal CO_2 impact and local products play a leading role in their unique and flavorful dishes. It is possible to combine Restaurant Novum with the adjacent Spectrum room. Curious about the possibilities or would you like to make a reservation? Click here for the website of Novum.

EAT-Lancet

The EAT-Lancet principle is a way of eating that is good for your health and for the planet. It is mainly plant-based, such as vegetables, fruit, grains, nuts, and legumes. There is also room for a little meat, fish, and dairy, but in smaller quantities. The goal is to eat a balanced and varied diet, while minimizing our impact on nature and the climate.

Home

Spectrum

max 30-36 persons*

Audiovisual equipment

**up to 30 chairs + 6 persons on the high couch*

Home

Spectrum is located next to restaurant Novum and has connecting doors to the restaurant. The room has a large round table that seats 18 people. The table can be split into three or six segments, each seating ten or five people respectively. The table can also be divided into two segments and placed to the sides to create a wide space for interactive sessions. At the back of the room is a high couch with seating for six people. The room has a floor-to-ceiling window overlooking the campus, making it very light and airy. The room is equipped with a screen with both wireless and wired connections for a laptop. In addition, the room is equipped with a video conferencing bar (soundbar with integrated camera), which makes hybrid meetings possible.

Private dining
Would you like to combine your meeting with a dinner, or dine together after the meeting? Spectrum offers the perfect setting for this. Thanks to the direct connection with restaurant Novum, you can dine in a private and exclusive setting without having to leave the room. This private environment offers peace and comfort for an enjoyable business dinner.

Home

The four Quantum rooms are located below the honour gallery. Depending on the set-up, each room can accommodate up to 30 people. The room is equipped with a screen that can be connected wirelessly to a laptop via ClickShare (requires a USB-C port). A wired HDMI connection is also available. For hybrid meetings, a video conferencing system is available, consisting of a soundbar with a built-in camera. Magnetic whiteboards are located on both sides of the room for attaching presentation materials or making notes. Catering can be provided in the room or in the (shared) hallway.

Momentum

Room 1+2+3 combined

Max 90 persons

Audiovisual equipment

When all three Momentum rooms are combined, there is space for up to 90 people, depending on the desired set-up. The space is equipped with a large projection screen that can be easily connected to a laptop via an HDMI cable. When arranged width wise, the three screens can be linked (streaming not possible). Two wireless microphones are available for audio, namely a handheld microphone and a revers microphone. The room has a fixed camera above the projection screen and a ceiling microphone, which enable live streams (software on your own laptop). Right next to the room is a spacious and long corridor that can be used to hang promotional material or posters. Due to the flexibility of the furniture and screens the combined Momentum rooms can also be set up as a parallel room with stands, posterboards, networking area or other (interactive) sessions.

The Momentum rooms are three multifunctional, connectable, rooms at the front side of the building. They can be used separately or combined to a bigger room for extra capacity and flexibility.

Momentum

Room 2+3 combined

Max 60 persons

Audiovisual equipment

Home

When two Momentum rooms (2+3) are connected, there is room for up to 60 people, depending on the chosen set up. The room has a projection screen with a projector, to which a laptop can be connected via the HDMI cable provided. For audio, a wireless handheld microphone and a wireless revers- or headset microphone are available. The room is also equipped with a fixed camera above the projection screen and a ceiling microphone, which can be used for live streaming. Directly adjacent to the room is a spacious and long corridor that can be used to hang promotional material or posters on the designated cables in front of the window. This corridor is also intended for catering purposes.

Momentum

Room 1, 2 or 3 (single)

Max 30 persons

Audiovisual equipment

Each room (Momentum 1, 2, or 3) can accommodate up to 30 people, depending on the set up. The rooms are equipped with modern presentation facilities. Each has a large screen that can be connected wirelessly via ClickShare (USB-C required) or via a wired HDMI connection. In addition, the rooms have an integrated video conferencing setup (VC) with soundbar and camera for hybrid meetings. Magnetic whiteboards can be placed in the rooms as an option. Right next to the room is a spacious hallway along the high windows. Among other things, this can be used to hang posters on the cables along the windows.
